

IBM i (AS/400) Modernization | Cluj-Napoca, Romania

Modernize IBM i. No Migration Required.

Your AS/400 doesn't need replacing - it needs today's technology. iVolve upgrades IBM i systems in place with modern RPG, REST APIs, DB2 optimization, and web interfaces, protecting the business logic you've refined for decades.

// SERVICES

RPG and COBOL Development	Free-format RPG IV, ILE architecture, and CL for enterprise delivery.
Web Integration and APIs	REST APIs, JSON services, and web frontends on IBM i logic.
System Modernization	Green-screen workflows into modern web UIs with logic preserved.
DB2 for i Optimization	Query tuning, data modeling, and performance engineering.
